## 🎓 Professional Summary

---

Technically skilled and self-driven Computer Science undergraduate with 2 years of hands-on experience in full-stack web development. Proficient in building scalable backend systems using Node.js, Express.js, and MongoDB, with a strong foundation in C programming and Data Structures. Successfully developed and deployed multiple real-world applications, including a Student Management System, Chat Application, and Internship Portal integrated with the Google Sheets API. Currently exploring AI, prompt engineering, and application security. Known for quick learning, strong problem-solving skills, and effective collaboration within agile teams and microservices-based architectures.

## 💼 Work Experience

---

**Intern - CodeAlpha**

*Jun 2025 – Jun 2025 | Lucknow, India*

- Developed and deployed a full-featured Restaurant Management System using Node.js, Express.js, MongoDB, and EJS.
- Built a URL Shortener application with RESTful microservices and deployed on Render.
- Followed Agile methodology and used Git for version control.
- **Live Links:**
- Restaurant System
- URL Shortener

## 📅 Education

---

**B.Tech in Computer Science Engineering**

Sasi Institute of Technology & Engineering, Tadepalligudem

*Jan 2023 – Present*

**AVG CGPA:** 9.4

## 📈 Projects :

---

📰 **Chatting Web App**

📰 Real-time messaging system allowing users to chat after mutual recognition.

📰 Deployed link

- **Tech Used**: Node.js, Express.js, Tailwind, JavaScript, EJS

---

📅 **Restaurant Management System**

📅 Application to manage menu, orders, tables, inventory, and reservations.

📅 Deployed link

📅 Admin password: admin123

- **Tech Used**: Node.js, Express.js, MongoDB, EJS 🖊

---

🖊 **Review System**

System to assign and rate work, enhancing performance through feedback.

- **Tech Used**: Node.js, Express.js, HTML, CSS, EJS

---

🔗 **Internship Application Portal**

🔗 Backend system to collect and store internship applications in Google Sheets using OAuth.

🔗 Deployed link

- **Tech Used**: Node.js, Google Sheets API, OAuth2, Express

.

---

## ⚖️ Skills

---

**Languages:** JavaScript, Java, Python, C

**Frontend:** HTML, CSS, Tailwind, Bootstrap, React.js

**Backend:** Node.js, Express.js, MongoDB, REST APIs

**Tools & Practices:** Git

---

**Other:** Data Structures & Algorithms
